

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to listen to the voice of common Americans whom you are supposed to protect. Please reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. If approved, this proposal WILL make my current service unaffordable.

The flat fee proposal is unfair, causing low-volume and primarily residential customers to bear the same universal service fund burden as a high-volume residential or business customers.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Bonnie Bachna
